PRESIDENTIAL COURT LAWN CRYPTS SECTION 19

PRESIDENTIAL COURT TIER

Visitors ascend to the Presidential Court and the feature statue of George Washington by means of a massive limestone staircase secured in Sewickley, PA. from the estate of Henry Oliver, one of Pittsburgh's leading steel manufacturers and philanthropists. The staircase was dismantled in 1964, placed in storage then re-assembled as you see it in 1972. The statue of George Washington by Jean Antone Houdon was created from the original marble statue of George Washington in the State Capitol of Virginia. Houdon was commissioned by Thomas Jefferson and Benjamin Franklin for this work in 1784. For two weeks at Mount Vernon Washington sat for him as he prepared sketches, modeled the bust and took a plaster cast of the face of our first President. This replica in bronze is from the living Washington.
