Louis S. Butterworth

JUL 6, 1932 - SEP 22, 2023

Louis S. Butterworth, 91, of Baldwin, passed away peacefully on Friday, September 22, 2023. Louis was born on July 6, 1932, in Talladega, AL, the oldest of nine children to parents Virgil and Pauline (Sexton) Butterworth.

Born and raised on a farm in Talladega, Alabama, Louis exhibited an early determination and resilience that would define his life. He was the first in his family to attend college, graduating from Jacksonville State College in Alabama with a degree in Chemistry and minor in Mathematics. His education and upbringing provided a foundation for a distinguished career marked by hard work and dedication.

After college, Louis was commissioned out of the Reserve Officers' Training Corps (ROTC) into the United States Army in the Chemical Corps stationed at Fort McClellan, AL. As part of his duties, he was ordered to Nevada, where he monitored nuclear tests in Frenchman's Flat during the 1950s. His service to our country culminated in his retirement from the Army Reserves as a Colonel.

Following his time on active duty, Louis embarked on a successful industrial career. He worked for Goodyear Atomic at the Piketon Gaseous Diffusion Plant and then Bettis Westinghouse, where he retired as a respected nuclear scientist.

Away from his professional life, Louis was a man of deep faith. He was a longtime member of Pittsburgh Baptist Church where he taught Sunday school and served as a deacon for many years, sharing his faith and wisdom with others and serving on various church committees and boards.

Louis enjoyed the outdoors. He had a special love for his garden and “mom’s flowers” and helping his neighbors. But above all, he loved his family, who were a constant source of joy and pride for him.

I worked with Lou at the Bettis Laboratory (a long time ago). I was a young kid back in those days, and I quickly learned that he had the kind of deep competence I wanted to emulate. He was kind, warm, funny, and he had a great accent. My condolences to his friends and family, and I look forward to seeing him again.

I had the pleasure of Lou working in my group at the Bettis Laboratory for many years. He was an outstanding employee and the quality of his work was always excellent. If Lou said it, it was so. He was a true gentleman and treated everyone with respect. I am glad to see he lived a long life, but still it is sad to hear of the passing of such a fine man.

Lou was a wonderful man who, as the obituary says, showed his faith in all he did. His smile, his accent, and his love for everyone were a few things that made him who he was. I was fortunate enough to know Lou for many years as a fellow member of Pittsburgh Baptist church. One thing I remember was that he always had peppermints in his pocket and gave them to anyone. It was just something about him. We will miss him but do know that although it was a sad day on earth it was a glorious day in Heaven as Lou was welcomed home.
