Lanny and I along with a 3rd engineer from American Bridge shared an apartment in East Liberty section of Pittsburgh from Nov '71 to May '72. After our 2nd burglary, we all moved out. The thing I most remember about that time was Lanny the hunter bringing deer chops back from one of his hunting trips. Never had deer chops before haven't since. I remember Sue and how every weekend before they were married, Lanny would go home to Altona to be with her. Lanny was an essential part of the surviving part of American Bridge. For those of us who had worked at AB and went our separate ways after the closing of the Fabrication division, we all thank Lanny and the other who stayed and kept the AB name in the construction spotlight. The San Francisco and Tappan Zee replacement projects are prime examples of Lannie's skill and expertise. May God be with Sue and Lanny always.

Competent, accomplished and responsible always come to mind when I think of my cousin Lanny. That's not to say he didn't know how to laugh and have fun! But he was a man who took his responsibilities seriously, especially when it came to his family. It was a joy to watch his daughters grow into such well-rounded, successful women. I will miss Lanny, and I am blessed that they are part of my family.
