Dave was an excellent engineer and friend - enjoyed working with him and later he was extremely helpful in our pumpable crib research. He worked tirelessly in helping make it safe for miners, had a can do attitude, and always made time for our crazy ideas. Please accept the sincere condolences from the Minova family to yours...we'll bring the donuts when we meet again Dave, and as usual - you better have the coffee!!

Dave was a very high character man who loved his family and friends. I am very grateful of all the time that I have had to spend with him since moving to Pittsburgh in 2015. I will certainly remember all the fun times that we had golfing, going to basketball, and baseball games and the fish fry's at his church. Right now, I'm grieving for his wife Robin and their son, daughter and family during this difficult time. My prayers are for all of you. Ken Barrett.
