To Nick and family, Sonja and I were fortunate enough to have been introduced to you and your family by Chris and Jim after we purchased Red's and Chris's campsite. Our memories are fond. The campfire conversations talking about fishing, hunting, music and Nascar always gave hours of great memories. You had a great wit and a sharp mind. A handyman, mechanical engineer and an Airframe and Powerplant mechanic. We were always glad to see your old Ford truck drive down the road that connected our campers. It offered a source of comfort when we were the only ones on Kibbie's island in the middle of a snowstorm. We found it hilarious that you were always competing with the "Dutchies". You had a kind heart and we will always remember you and your daughters. Thanks for your kindness and visits and for taking care of our campsite while we were away. One last wonderful memory was seeing you alone in your canoe, nose of the canoe pointed upward while fishing in the back channel. May you continue your fishing and hunting while you are held in the hands of God. Missing you! Would love to sit by the fire with you again and give you the firing order of the old aircraft radial engine. God bless you Nick and his family. Thanks for the memories gentle heart. A regular guy. A great guy. A hard worker. A self proclaimed genius with an enjoyable dry sense of humor. Always a wave from his F-150. He is missed. Keith
