He graduated from Penn State in 1987 with a degree in industrial engineering and later earned his master's degree in business in 2006. His career spanned many areas of industrial manufacturing and took him across several countries, as he was always seeking the next challenge. He found great purpose in solving complex problems through his leadership and experience.

He adored his grandkids and loved spending time playing with them, always finding joy in making them smile and often surprising them with thoughtful gifts. As a father, he created many cherished memories with his children, from movie nights together to road trips traveling across the United States. His love for his family was at the center of his life.

Mark was a great man with a lot of integrity. He would call on me when he ran into a blow molding issue from time to time and all ways was very appreciative of what I had to say. Last time that he was in town, Dave Tiller and I met down at the winking lizard in Peninsula Ohio . sadly, we will not be able to meet this summer on our journey out to Arizona with the RV. My wife and I were both looking forward hooking up this summer. rest in peace Mark until we meet again.Kelly & Beth Powell

Mark & I were schoolmates & good friends. He brought me into his circle of "guys," all who treated me as their special girl. I was in Mark & Tracy's wedding & hung out at their first apartment when visiting Penn State. I will always remember his love for photography, kind heart & hearty laugh. Good-bye my friend.
